

MARINE COATINGS

دهانات بحرية

Noble Coatings is active in the manufacture and supply of coatings for commercial ships and steel structures onshore as well as offshore. Extensive research and development work has provided **Noble Coatings** with a series of products which professionals acknowledge to be complete and of high quality. **Noble Coatings** has a network of manufacturers, producing its range of coatings and subsequently distributing the paints to all continents. Manufacturing takes place using stringent formulations. Whether a product is supplied in Europe, Asia, America, Africa or Australia, the quality is guaranteed identical. At any shore therefore, wherever in the world, you can rely on **Noble Coatings**.

The colours in this brochure are representations rather than exact matches to the colours of the specific products. The appearance of any colour of any product will depend on the gloss level and composition of the selected product. Slight differences therefore may occur from coating to coating for the same colour shade. Additional shades and special custom colours can be made available. Consult your nearest Noble representative for specific information.
